HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO MAY 18.

The Charges Against Judges Field and Hoffman

WASHINGTON, May 18.—Julian's charges against Field and Hoffman relate to decisions made in certain gold and land cases in California, in each of which it is claimed large sums of money were used to secure decisions. The matter is not well understood here, but seems to spring from complications of long standing on the Pacific coast. The petition presented by Julian is signed by W. H. Hastings, a lawyer of San Francisco, who is debarred by them from practicing in the United States courts in California, and he now charges them with misbehavior and misconduct in office. None of the allegations are specified and there seems to be no means of ascertaining what if any proof will be brought before the Judiciary Committee to sustain them.

Congressional.

WASHINGTON, May 18.—In the House, amendments to the naval bill offered by Sargent, increasing the appropriation for powder and labor in the navy yards, was rejected and the bill passed.

The San Domingo Treaty.

WASHINGTON, May 18.—On the return of Secretary Fish the President will send to the Senate sundry amendments to the San Domingo treaty in order to avoid objections made to it by Senators in its present form. These amendments were shown to-day. One places the amount to be paid that Republic at a million and a half with a proviso that claims of foreign governments shall be paid first; next, subjects of foreign powers and their domestic debt. Citizens of San Domingo are to be fully protected in their civil and religious rights. The friends of the treaty say the prospects for its ratification are improving.

Miscellaneous.

NEW YORK, May 18.—Two hotel trains will hereafter run between Omaha and San Francisco weekly, viz.: one on Tuesdays and one on Thursday.

At a meeting of the United States Commissioners of Indian Affairs to-day, a committee was appointed to prepare for treatment of the Indian question to be presented to Congress. A letter from Gen. Sherman disapproving of these meetings and saying if they would adjourn to Fort Sulley or Fort Rice where the Indians are, he would be inclined to attend, excited indignation.

AUGUSTA, GA., May 18.—Gov. Bard of Idaho, on his way to Washington, states he will resign and return to Georgia to aid in defeating Gov. Bullock.

HAVANA, May 18.—The brothers of General Arango, imprisoned by the insurgents, it is rumored here, have been killed. The General left Nuevitas with a column to learn of his brothers' whereabouts.

A heavy shock of an earthquake occurred in the City of Mexico on the 11th inst. No particulars have been received.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, May 19.—The report of the United States Engineers against the cession of the Presidio reserve to San Francisco, intimates that it might be well to permit the city to use a portion for a park, but that in time all would be required for military purposes; relates how the city has lost all its outside lands by conceding them to squatters; intimates that the same result would likely follow the cession, outright, of the Presidio ... concedes that the city, for some cause, is unable to maintain its possessory right to unoccupied lands, and therefore the United States ... did not convey to the city even if it fenced with all legal guards the fee simple to any land which it may use in the future.

The Caulkers' Association has dropped the eight hour rule and are now working nine hours a day. It is said that several other laboring organizations will follow the lead shortly. The caulkers were the first organization in the city to adopt the eight hour rule.

The owners of the Luyman grant, or claim, insist that they must have one-half of the proceeds of the San Diego mines or not allow them to be worked. The grant itself was rejected, and the mines are outside the original boundaries claimed. Under the circumstances parties who sent a mill down to Julian district have concluded not to put it up.

The California Rifles, last evening, received eighty new members and rejected thirty; they will be mustered in and attached to the Second regiment.

The Surgeon of the Union Pacific Railroad Company, who came here to settle in behalf of the Company with several parties injured by different accidents, succeeded in each case to mutual satisfaction.

Jeff. Davis' Application of His Old Plea, "Let us Alone."

[From the New York Evening Post, April 29.]

Two or three journals, with more zeal than discretion, bring the name of Mr. Jefferson Davis again before the people; and in a conspicuously unfortunate way. Mr. Davis, it seems, has just written a private letter, in which he speaks of a time when "men had not reached the degree of stultification which caused the withdrawal of States from the Union to be called 'rebellion,'" and the Philadelphia *Press* and the New York *World* publish the letter, with comments, written in the spirit of the melancholy days when "the withdrawal of certain States from the Union" was the question of the day, and all fierce passions were enlisted on one side of it or the other.

The best thing that can be done with Mr. Jefferson Davis, both for himself and for the country, is to let him drop out of sight and out of mind as quickly as possible. His narrow mind and poisoned heart, his cruelty to brave foes when in his power, and his frightful mismanagement of the resources wrested from a people whom he first deluded and then crushed, his melodramatic efforts at tragic grandeur in Washington and in Richmond, and his farcical flight under a cowardly and ludicrous disguise, when the ruin he had wrought came home to him, in short, his execrable crimes and childish blunders will still occupy a page in history, and he will always be the most contemptible figure among men and prominent in the affairs of this century.

But let him remain in history, and not rise with all his shame upon him, to affront and excite us now. We want peace, brotherhood, oblivion, union. Men like him, who learn nothing and forget nothing, who cannot even now accept the judgment of events and lay down the language of treason, are better in the past than in the present. He cannot be brought, as a living man, before the American people, without awakening curses which are asleep, hatreds which have no place in the work of to-day. His is the head on which lies the blood of our brothers and friends, slain on both sides of the contest his wicked ambition provoked; and of those murdered by slow torture in his prison houses, the head which is the symbol of fraternal strife and national devastation. Away with his name from our sight, and let us and our children forever, as citizens, regard it as Christians do the name of Judas.

REDEMPTION OF BANK NOTES.—Treasurer Spinner has recently written a letter in which he corrects an error which is somewhat common. He shows that if the national banks break the Government is liable for the full redemption of their notes, and impresses the fact by such affirmation as this:

I would state that the bonds held in this office to secure the prompt payment and redemption of the circulating notes of the national banks, are not held to pay such notes of a broken bank when presented for payment, from the avails of the sales of the bonds, but to indemnify the United States for redeeming such notes. The notes must be redeemed by the Treasurer of the United States at once, whenever presented for payment, whether the security held for their redemption is sufficient or not. The security is not, therefore as you seem to suppose, "a certain amount," but is perfect for the whole amount. The Government has undertaken to pay the notes of all defaulting national Banks on the same terms that it redeems its own notes.

The report now going the rounds of the newspapers, that Mr. A. D. Richardson is preparing an autobiography, is unfounded.

CURRENT NOTES.

Mr. E. P. Hingston is soon to publish in London a book to be called "The Genial Showman," which will comprise pictures of American life as seen by a showman, adventures among gold diggers, Indians and Mormons, and a biography in anecdote of the late Artemus Ward.

Mr. George Wilkes, of the *Spirit of the Times*, has been decorated by the Emperor of Russia with the Grand Cross of the Order of St. Stanislaus, as a recognition of his suggestions made to the Russian Government in reference to the overland railway to China and India by the way of Russia.

Senator Brownlow writes: "The death of General Thomas has cast a gloom over the whole country. The country seems now to appreciate him. Why not? I hold that he was the greatest man of the war, and the only General of whom it can be in truth said, he never lost a battle nor made a mistake."

A Washington correspondent has been studying the portraits of Mr. Gladstone and the late Mr. Fessenden, and has found that the head of the former when compared with that of the latter has "less height, less width and less causative fullness in the frontal dome." But as it can't be helped now, what is the use in talking about it.

The New York Commercial *Advertiser* says that "anti income clubs are forming in various parts of the country." This is the first instance of the kind that the I. G. ever met with. Most people have no objection to incomes, especially large ones, but perhaps the paper referred to forgot to say something about tax, in which case the matter is explained at once.

The Indianapolis *Journal* announces the marriage of Mahlon Apple and Sarah C. Mock. She probably calls him a Nansuch, and for a few weeks, at least, he won't suspect that she is mocking him. This alliance, being a sort of mock-apple arrangement, suggests the thought that its issue may turn out to be Dead Sea fruit. At any rate—and it is said in no mocking mood—the children are sure to be greenings for the first few years of their lives, and they may also be called crab-apples during the creeping period.

Of the five gentlemen nominated by the democrats to seats on the bench of the New York Court of Appeals, only one, Mr. Sandford E. Church, the candidate for Chief Justice, is generally known outside of the State. It will be remembered that he was the first choice of the New York delegation in the Democratic National Convention of 1868 as a candidate for President. This preference, however, was merely complimentary, and Mr. Church's name was soon withdrawn without receiving the vote of any other State. He has never been on the bench, and has the reputation of being an able lawyer and a conscientious man. The full bench consists of seven judges, and under the system provided for by the new law, only five can be voted for on one ticket.

Among the Cossacks of the Ukraine leap year is eternal. When a young woman feels a tender passion for a young man she seeks him at the residence of his parents, and addresses him as follows.—"The goodness I see written in your countenance is a sufficient assurance to me that you are capable of ruling and loving a wife, and your excellent qualities encourage me to hope that you will make a good husband. It is in this belief that I have taken the resolution to come and beg you, with all due humility, to accept me as your spouse." She then addresses the father and mother, and solicits their consent to the marriage. If she meets with refusal, she declines to leave the house, and such conduct is usually crowned with success. The parents of the young man never put the young maidens away, if they still persist in their stay, believing that by doing so they would bring down the vengeance of heaven upon their head.

Physical Basis of Statesmen—Fessenden and Sumner Contrasted.

Mrs. Mary Clemmer, in a letter to the *Independent*, thus discourses of physique as a basis of successful statesmanship:

A portrait of Mr. Gladstone in a late number of *Every Saturday* is suggestive of Mr. Fessenden. Indeed, it seems almost as if it were Senator Fessenden, rounded out into ampler life. It is what he would have been if his body had equalled his brain. Of the two, the English Premier's head is less powerful than that of the American Senator. There is less height, less width, less causative fullness in the frontal dome. But any slight discrepancy here is more than atoned for by the capacious nostrils that give air to the brain-cells, the great throat, the broad shoulders, the grand engineery below which propels this brain and sustains it. What might not Mr. Fessenden have been with such powerful adjuncts! With them he would have been still on earth and in the Senate. He would have been building up a grand record for history, recording for posterity works more immortal than the *Juventis Mundi*.

Who, looking down on his wonted seat, can cease to mourn for Fessenden, the great debater, the incorruptible statesman, the irascible, sensitive, loving-hearted man. Not in his seat, it seems as if, waiting a moment, we should see him meditatively passing up and down behind it; or slowly slipping through the door of the cloak room, his hands in his pockets, his slight figure bent, his great head—so much too great for the frame which could not support it—always drooping forward, as if weighed down with thought, his lips compressed, his expression one of weariness, often of pain. The longer we look the more we miss his presence, and the more unreconciled we feel to his untimely taking off. The longer we listen to a dry dribble of talk the more we long to hear pierce the dullness one of his old keen, incisive sentences, cutting straight to the marrow of things. Without him, his long-time generous antagonist, Sumner, finds no foe at once so provocative and worthy of his speech. Trumbull, more pugnacious and irate, lacks the far sight and wide mental comprehension of Fessenden.

Charles Sumner sits the figure-head of the Senate. The ladies look at him as much as ever, and many and remarkable are the comments which may be heard upon him from the galleries. He sits as he sat years and years ago—not an attitude, not a gesture changed, apparently in the identical suit of gray, with dark coat, in which he towered the New England school-girl's Pericles a score of years ago. Time, which spared his clothes, has dealt less gently with him. Life, which leaves its subtle tracery on all our faces, has laid its hand heavily on his, as it always does on the face of man or woman in whom existence is a battle, not a dream. The evening gray has fallen on his hair, the trace of many an inward and outward conflict is graven in the strong features; but he has still unbroken what he had in the beginning, that which is indispensable to the successful statesman and orator—"the physical basis of oratory." Without his six feet of altitude and his thunderous ayes and noes, Charles Sumner could never have been Charles Sumner. If he had been compelled by feeble lungs and a defective throat to shriek his dictum in a shrill treble or in a squeaking pipe, he could never as a statesman have been at once the king and the conqueror of an idea. If he had been as little as Lord Russell, not even Sydney Smith's excuse to the dissatisfied farmers of Devonshire—"that he was naturally bigger, but had been reduced by his labors in the cause of reform"—could ever have given him that personal impressment which now, by filling the eyes and ears, more than fulfills the prestige of his name.

Without special premeditation, I have strayed back to the thought whence we started: the physical basis of the statesman. For lack of it Fessenden died. For lack of it, and it only, he missed the highest intellectual success, without its ministry even his fine brain could not fulfill its largest function. For lack of it some of the most intellectual men in the Senate to-day are slowly dying. I count the years on my hand when, if I live myself, I shall write their eulogy for you with heartfelt sorrow. This would be altogether too gloomy to talk about if it were too late for remedy. But it lies within human power to stay the prodigal waste of human life which marks us as a people. Think of the havoc which death has made among the most intellectual and illustrious of our race within two little years.

OREGON

The Columbia river fell about one foot at the Dalles, during Wednesday night.

The Gas Light Company at Salem have purchased two lots at the corner of Chemeketa and Water streets for $2,600 and will commence the erection of their works at once.

An agricultural paper has been started at Walla Walla, called the Walla Walla *Farmer*. It is to be published on the first of each month. It makes a very creditable appearance, and should be well sustained.

The annual meeting of the Christian Brotherhood of the State of Oregon will begin at their place of meeting on Rickreal, Polk county, on Tuesday, June 10th, and will continue over two Lord's days.

The Linn County Teachers' Institute will be held at Harmony Church, five miles south east of Peoria, commencing on Thursday, June 2d, at 10 o'clock A. M. We are informed that ample provisions will be made to accommodate all in attendance free of charge. *Teachers* and friends of education are expected to be punctual in attendance.

The Republican Convention of Columbia county, held yesterday, placed the following ticket in nomination: For Joint Representative, C. Olney, County Judge, Dean Blanchard, Clerk, W. W. West; Sheriff, Jno. H. Swager; Treasurer, J. L. Ladd; Assessor H. Caples; School Superintendent, F. A. Lamont. Messrs. J. L. Ladd, B. F. Gilt-ner and E. W. Conyers were elected County Central Committee.

The third annual report of the Oregon Children's Aid Society of Salem, shows that the Society has erected improvements to the amount of $2,536 94 on the ten acres of land donated by the late Mrs. Parrish. The receipts of the Society have been $3 258 41. There are 42 life and 2 honorary members. There are at present 7 applicants for admission, and one orphan has been received into the care of the Society.

MISCELLANEOUS ITEMS.

The Fenians in New York are now actively engaged in drilling new members.

Gen. James B. Mix has resigned from the editorial staff of the New York *Tribune*.

In the Hungarian Empire they are about to celebrate the feast of the 1,000 years jubilee.

A saloon-keeper in Columbia, S. C., feels very much aggrieved because a man and his two sons called for half a glass of ice cream and three spoons.

It is stated that a man recently died in Alleghany county, N. Y., who left his wife one cent, his brother a few dollars, and the remainder of his property, $5,000, to erect a monument to his own stinginess and egotism.

Forty-one years was the good old age of a horse which died recently in Ulster county. Of him his disconsolate owner says, that he would take down the bars with his teeth when he wanted to get out of a lot, and when he wanted a shoe put on he would go down to the blacksmith shop and wait there until it was put on, and then return to the stable.

A prominent friend of Cuban independence says that the reason why Gen. Jordan left the Cuban army is that he had engaged in that service for only one year, which time has expired; but he is now on his way to this country, accompanied by two secretaries, as an accredited agent of the insurgents.

In Europe the Freemasons are beginning to move against the Pope. The Grand Lodge of the "Sun," at Beyrout, has sent out an open letter to all other lodges, reminding Freemasons that the rules of the association bind them to keep a watch upon the present proceedings of the Vatican, in so far as they may be inimical to the general welfare.

Governor Scott, in a fifteenth amendment speech in Columbia, S. C., on the 21st inst., advocated woman suffrage. The papers consider this a new bid for favor on the part of the Governor. Everything in South Carolina seems to follow the example of the raccoon in the case of Captain Scott, which "came down" without requiring a shot from the famous marksman.

General Grant as "A Failure."

[From the Chicago Republican.]

According to very high Democratic authority Gen. Grant is a failure. He failed to make public his plans and purposes as President, in advance of taking the office, which was a deadly sin. He failed in not letting the Democracy dictate his Cabinet—a work they would so kindly have undertaken. He has failed to dictate to Congress the details of its legislation on matters strictly within its own sphere. He has failed to increase the expenses of the army and navy but has reduced them. He has failed to increase the National debt—but has paid off about $100,000,000. He has failed to increase taxation—but urges a reduction as essential to the public welfare. He has failed to plunge the country into war—but has established peace with all the world. He has failed to let the South re establish slavery—but has established universal freedom. He has failed to let the gentle savage practice his playful tomahawk on the heads of the frontier settlers, and make scalping-knife belts out of locks of the hair of white women and children—but has "struck them hard," and promises to strike them harder, if they don't quit this kind of amiable practice. Indeed, his failures have all been of the same class, and what the Democracy esteem very remarkable, is that the people seem to kind to take to them. It is indeed a marvel how President Grant could fail so constantly, and yet succeed all the while. It is a paradox which might ily puzzles the Democratic intellect.

As if to render contrasts more striking, the Chicago *Times* compares James Buchanan, whose feebleness and want of plan or purpose, brought on the rebellion, with Grant, who trampled it out and insists that Buchanan, who failed in every thing, was superior to Grant, who has succeeded in everything. The Democratic esophagus must have a great stretch to take down that and not wince.

Eastern papers state that among the nominations sent by the President to the Senate on the 3d of May, was that of Thomas H. Pearne, of Tennessee, to be Consul at Kingston, Jamaica.

FRIDAY MORNING MAY [illegible]

Facts Clearly Proven

Some of the opposition [illegible] that we have misstated the position of that party on the policy of land grants as [illegible] in the proceedings on the Portland, Astoria and McMinnville bill. We shall [illegible] the case and call attention to [illegible] which no one can controvert. That the bill granting lands to our west[illegible] was fought through the Senate strictly [illegible] measure, and that it was carried through the House substantially as a party [illegible] we shall prove beyond question.

1 The fact will not be denied that this bill was opposed by every Democrat in the Senate. Thurman, Casserly and others [illegible] ed against it with all their might and with every other member of their party in that body voted against it. We have [illegible] then that this was strictly a party measure in the Senate. So much for the first leading fact of the case.

2 When the bill went to the House it met with violent opposition from the Democratic side. Mr Smith of Oregon proposed a measure of his own which he desired should supersede the bill, but when he found this could not be accomplished and that the original bill was likely to pass, he was too shrewd a man to let it pass without his assistance. He therefore appealed to his Democratic friends not to make it a party measure in the House as it had been in the Senate, alleging that if they did it would be disastrous to their party in Oregon. By these appeals he succeeded in getting a few of them to vote for the bill, but a large majority of them went against it. The vote in the House stood ninety seven for to sixty nine against the bill. Of the ninety-seven ayes just fifteen were Democrats. Of the sixty nine noes twenty nine were Democrats. Eighty-two Republicans voted for the bill and forty Republicans voted against it. Thus the Democratic vote was just two to one *against* the bill, and the Republican vote was just two to one *for* it. If this was not substantially a party measure, carried through by Republicans we should be at a loss what to call it.

3 It has been pretended that the opposition of Democrats on this occasion arose from their desire to have the lands reserved for homestead[illegible] [illegible] not want a corpo[illegible] to have them to the [illegible]

4 But this bill, from the very first [illegible] a provision requiring the Company to sell the lands to [illegible] at the maximum price of two dollars and a-half per acre. Yet it was [illegible] by *all* the Democrats in the Senate, and by *two-thirds* of the Democrats in the House. The Republicans in the Senate on the contrary, *all* supported it and *two thirds* of the Republicans in the House supported it also. We trust that after this plain statement of incontrovertible facts there will be no [illegible] for us to allude to this matter [illegible], to prove that the policy of the Democratic party as developed in the proceedings on this Oregon bill is hostile to land grants for internal improvements, even when such grants are so made as "to guard properly and amply the rights of the poor wanting homes."

Trans Continental Trade

The heavy and constantly increasing traffic over the Pacific railroad and especially the rush of [illegible] towards the west, is an indication highly favorable to the prosperity and progress of our Pacific States and Territories. The press of passengers at Omaha is sometimes so great that many are [illegible] to wait some days to get first class accommodations to San Francisco.

A prominent commercial journal published at New York alludes to the great increase of traffic over the transcontinental road, and thinks it demonstrates the fact that a water [illegible] through the Isthmus of Darien in view of the immense expenditure of money which it would involve and the pre[illegible]ence which railway carriage has attained, cannot be regarded in the light of a commercial necessity. As the Pacific railroad yet in its infancy, and with only a single track, has been enabled to divert a heavy per centage of traffic from the California water routes where rates have been reduced to the minimum, it is obvious that the three roads which are [illegible] to span the continent within a decade of years, will afford ample accommodation for all the transportation business which is likely to arise from the industrial development of our Pacific States and our new relations with China and Japan. The charges by the Pacific road were at the outset, necessarily extreme, owing to the heavy expenses of handling freight &c, but they have gradually been modified, and each modification has brought an increase of business at the expense of the water lines. Thus, the Pacific Mail steamship which sailed from New York for Aspinwall on the 21st April took out only about 350 tons of cargo less than half of which was through freight to San Francisco, and this too, notwithstanding the withdrawal of the Panama R R Company's line of sailing vessels, which gives the steamships a practical monopoly of the Isthmus trade. The truth is, the Panama Railroad and Pacific Mail Company after having served the requirements of the bullion traffic and the current of emigration to the shores of the Pacific, for which they were mainly [illegible], have fallen into comparative disuse as commercial carriers, one evidence of which is afforded by the heavy depreciation in the market value of their shares. The railroad business is growing up into immense importance and will be augmented beyond all possible calculation by time and by the completion of other trans-continental lines.

Northern Pacific Railroad

We gather from advertisements which appear in Eastern newspapers some information relative to what is doing in the way of constructing the Northern Pacific railroad. The company give notice that bids will be received up to the first day of June for the grading, masonry, bridging and ballasting the road from the Dalles of the St Louis river to the western boundary of the State of Minnesota, a distance of two hundred and thirty miles and also for the timber cross ties and rails for the road, for the distance above indicated. It is the intent [illegible] to complete this section of the road the present year, which will be a very fair beginning.

Our telegraphic dispatches of late have had much to say about a controversy in Congress over a proposed grant of lands for this road. This proposed grant is simply designed to extend the limits of the former grant so as to make up to the company any deficiency which may result from the occupation of the lands by settlers along the route. No doubt it will be passed but with the provision that the lands shall be sold at low prices to settlers.

Editorial Notes

[illegible] the [illegible] of [illegible] has been cooking up to prove that one other Mr [illegible] of the Salem factory company ever proposed to employ Chinese in their establishment. Now hadn't somebody better prepare or publish an item in the "organ" another batch to prove that Bob Laird never employed Chinese in his clothing manufactory in [illegible]

[illegible] start [illegible] South from Salem [illegible] to complete the canvass of the State. We hear by [illegible] making him swallow a [illegible] like a poltroon [illegible] getting daily more [illegible] frequently forgetting [illegible] It is [illegible] the way with people who feel that they are losing ground.

A correspondent of the San Francisco *Bulletin* writing from one of the northern counties of California says there is plenty of work to be done in that section of the State if men will only do it, and that if laboring men will quit San Francisco and go into the interior they need never be without work. But so long as they hang about the metropolis to swell the idle rabble who are alternately petted and used by the demagogues of the Democratic party for their own purposes, they will live a life of dependence and poverty.

We wonder if Capt Holman who is a large owner in the ship *Hattie Besse* has a contract with Ben Holladay to import from China laborers for the latter's railroad? It would certainly seem so if the statements of Grasshopper Jim are to be credited. If as the same authority has told us the person who induces Chinese to come to this country is more to be blamed than the person who employs them after they are here, one of the Democratic candidates for the Legislature in this county has a grave offense to answer for.

One N J Butler Democratic candidate for Prosecuting Attorney in the 3d Judicial District is devoting himself to "white supremacy and State rights." It may be that Butler stands in need of a little cultivation in order to maintain his "white supremacy," at least, we may so infer from the fact that he is now so far behind the age as to go about the country harping on the old Democratic idea of State rights. There is not a negro alive but who knows that old pernicious doctrine has been for years exploded. Butler should certainly look [illegible] supremacy."

"No man of sense," says the "organ," "will listen to the absurd statement that this (Chinese) immigration cannot be stopped, and the Democratic party propose to stop it." Indeed! And how? By preventing the Democratic ship-owner (who is a candidate for the Legislature in this county) from allowing his vessel to engage in the business of importing Chinamen? If the Democratic party ever stop it they will act differently from what they did when they controlled the country some years ago, and when they allowed Chinese to come here in much larger numbers than now.

Mr O S Savage is, we believe, a candidate on the Democratic ticket in Wasco county for the Legislature. He boldly says that there is no danger whatever of the defeat of his party in Wasco county, for the reason that they have the matter entirely in their own hands, and propose to use their power to make success certain. In other words, they have every judge of election in the county, and no matter how many Republicans may offer to vote they propose to rule out enough to leave a sure Democratic majority. This is the way they "elected" Vic Trevitt two years ago, and the plan worked so well that they now intend to put it in practice on a larger scale. As the first step in the proceeding they have given the Republicans not a single judge of election in the county, and Mr Savage says it is all fixed with the Democratic boards who will conduct the election. Isn't he a nice man for the Legislature? A proper man to be intrusted with the interests of the State!

The *Workingman's Journal* of San Francisco seems to have got its eyes open in regard to the Democratic party. It discovers that that party is managed by adroit leaders who habitually propagate humbugs for the sake of obtaining office and political power. It shows that nothing was done by the last Legislature that was promised and adds "Somehow or other the leaders of the Democracy have the tact to deceive the masses every time and still win the next opportunity by publicly lying to their constituents for the leaders of that party are bound to win if the popular classes starve. The leaders are a set of aristocrats." Again, the same paper says "The working men may as well understand at once that they have nothing to expect from the Democratic party who were so profuse with their promises during, and before, the campaign for the election of State and county officers." These are keen thrusts. The only wonder is that any man can be misled by the humbugs and clap traps of the Democratic politicians.

Chinaphobia

Yesterday the Chinaphobic organ published two long articles, written evidently while the rabies was at its height, on the arrival of a ship from China with a considerable number of Chinese passengers. One of the articles charges that these Chinese were brought here to work on the railroad. We quote a part of it:

The *Hattie C Besse* yesterday landed in Portland three hundred Chinamen, direct from Hong Kong. These are Holladay's *reserves* to be kept back until he has *used* his white laborers to carry the election and then those white men will be [illegible] and their places on the railroad will be filled by the "reserves." The arrangement is probably already made. We may be certain at least that the company which imported this cargo of Chinamen into our State did not do so upon an [illegible]. They were brought to fill a demand.

Here we are informed that these Chinamen were brought here on contract for the express purpose of working on the railroad. But in the adjoining column immediately opposite where this statement appears we find the following:

If the State goes Democratic the railroad company will not *dare* to discharge white men for Chinese.

Now how are these statements to be construed? There can be but one way of doing it. Either there is no intention of discharging white laborers and employing Chinese, or the State is sure not to go Democratic. For we have it stated in the first place that the white laborers are certain to be discharged, and in the next place that if the State goes Democratic the company will not dare to discharge them. If there is any argument here it is that the State is certain to go Republican.

The idea that the result of the election will make any difference as to the kind of labor employed on the railroad is one of the brightest intellectual efforts of the genius who presides over the columns of the "organ." "If," he adds "the next Legislature is Democratic they dare not discharge you who are now on the road." Really, is it possible to conceive or to utter anything more ridiculous than this? How is the next Legislature even if it is Democratic to prevent any person from employing Chinese who sees fit to do so? Did the last Legislature [illegible] Has the Legislature [illegible] do anything of the kind? It is well known that a Legislature has no power to act and no Legislature of common intelligence would so act if it had the power. We almost despair of ever seeing anything like a ray of [illegible] sense [illegible] of the Democracy.

As to [illegible] reiterated assertion that white [illegible] are to be discharged from the railroad [illegible] we will say again that we [illegible] several times conversed with the Superintendent of the road—not however with political views but with a design of ascertaining [illegible] the road is to be pushed this year,—and he has repeatedly stated that he wants all the laborers (white men) he can get and would keep them permanently. The building of one hundred miles of the road the present year is wholly a question of labor, and as the company are fully prepared to "push things" they want all the good men they can get and will discharge no such laborer either before or after the election.

Sale of Timbered Lands

On the 28th April Senator Corbett introduced a bill for the sale of certain lands in California, Oregon and Washington Territory. It provides that lands not included within Military, Indian or other reservations of the United States valuable for timber but unfit for cultivation, whether embraced within the public surveys or unsurveyed may be sold to citizens of the United States in quantities not exceeding six hundred and forty acres to any one person or association of persons at the minimum price of $1 25 per acre, except the alternate sections within railroad grants which may be sold as double minimum lands. The bill provides the manner in which application shall be made by persons desiring to purchase, to the several land offices. The object of this bill seems to be to allow persons who want to take timber from lands not yet in market to purchase the lands so that they can take it without liability therefor. The bill was referred to the Committee on Public Lands.

The Oldest Purely Mutual Life Insurance Co in the United States

Assets $9,000,000.

THE ONLY MASSACHUSETTS COMPANY, AND the only Company [illegible] by the MASSACHUSETTS NON-FORFEITURE LAW [illegible]

Practical Examples of the Benefits of this Law

A L E Miller, of Portland, Oregon, insured under Policy No 13 054 for $5 000 died over six months after the premium was due and unpaid. The $5 000 was promptly paid the widow less the unpaid premium.

J W Jones of Colusa, California, insured under Policy No 32,016, for $10 000 died over four months after the premium was due and unpaid. The $10,000 was promptly paid the widow less the unpaid premium.

J B Baldwin of Colusa, Cal, insured under Policy No 38 255 for $1 000 died over three months after the premium was due and unpaid. The $1 000 was promptly paid, less the unpaid premium.

Is it not an object for you to insure in a Company where your policy is protected by such a wise and equitable law? This Company is not restricted to investing its funds in Massachusetts. The funds are invested in the best securities where the largest interest is obtainable. Thus it has been able to return as dividends to the policy holders in cash during the last four years $2 466,109. Dividends payable annually in cash.

FOR VICTORIA.—The propeller *California* cleared for Puget Sound and Victoria last evening, with passengers as follows: C Jordon, C Lane, John Kurtz, W Kidder, Col Gibson, U S A, E Brown, Mrs Thornton and two children, J W Kemp wife and two children, H C Hale, J Kemp, F Wilkinson, Rev Jas Lodge and wife, S Knight wife and two children, A Innies, wife and three children, A Brownler, T Catharne, F Wright, H Wright, Judge Upton and wife, Mrs T Calhorne, D C Linsley, J Sprague, E Smith, Mrs Wallace, J Horstock and wife, Miss Wallace, O Duncan, wife and daughter, S Adams, George Stewart, A Stewart.

FOURTH OF JULY CELEBRATION.—No celebration of the Fourth of July is perfect without fireworks in the evening. Mr. Geo. Hughes, the celebrated pyrotechnist, who makes a specialty of getting up fire-works in this State, is now employed in manufacturing for the coming celebration, and we invite the attention of the press and and the public of Oregon to this fact. Catalogues and full prices will be sent free on application to McLeran Bros., agents, Portland, Oregon.

THUNDER.—One of those very uncommon occurrences, caused by the sudden separation and reunion of the air through which lightning passes, was heard in this region last evening about five o'clock. It startled the people something after the style of an earthquake at San Francisco, but did nobody any damage. Wonder if, in the development of Oregon, we are to have thunder storms thrown in.

TURN VEREIN PICNIC.—We have received a complimentary ticket from Messrs. L. Einstein, S. Frohman, J. D. Scharff and Chas. Rosenbaum, Committee having the management of the grand excursion and picnic to be given by the Portland Turn Verein, on the 29th, at Bellvue grove. We can safely predict that this will be a fine affair. Particulars of the excursion will soon appear in an advertisement.

REPAIRED.—The locomotive *Pony*, which was disabled a few days ago, was repaired and at work again as usual at the embankment opposite the gas works on the east side of the river. During the time the repairs were being made the hands were employed in "stripping" and otherwise preparing for the removal of earth a long distance down the bank.

UNITARIAN PICNIC.—The Unitarian Sunday School will hold their annual pic-nic excursion tomorrow. A cordial invitation is extended to those children who were unable to attend the Union picnic last Saturday. The time and place of embarking will be at the Morrison street wharf, as per advertisement this morning in another column.

LARGE PHOTOGRAPH.—Yesterday the Grand Lodge, I. O. O. F., were photographed in a group by Joseph Buchtel, artist. The view was taken from the sidewalk in front of the Odd Fellows' Temple, and it makes a very fine picture, but needs a little re touching in ink to heighten the tone.

PILE DRIVING.—The water is at a stage now which permits the work of driving piles along the line of the Oregon and California Railroad, and the pile driver has been stationed in the vicinity of the East Portland Bank, preparatory to beginning operations.

THE LAKE STEAMERS.—The two steamers on the Pen d' Orielle route to Helena above the lake will be brought down into the lake now very soon, as Capt. Das. Miller and a competent engineer leave this city to-day for that purpose. Success to the expedition.

PERSONAL.—Mr. A. Kaufman, for many years a resident of this city, but who has been absent to Germany for some years past, returned by the last steamer, bringing his family with him to remain in Oregon permanently.

Hon. S. Garfielde will arrive at the Dalles on Saturday, and will deliver a speech there on the evening of the same day.

On the 15th inst., Mr. C. Beal organized a Lodge of Good Templars at Sublimity, Marion county, with 34 charter members—R. L. Swartz, W. C. T.

On the 13th inst., the trial of Geo. Dodson, for the killing of Wm. Cochran, was going on at La Grande. It was expected the trial would occupy the entire week.

The Salem *Statesman* of the 19th says: "Sheriff Van Buren, of Douglas county, arrived by stage yesterday morning, bringing with him Charles Starr, sentenced to penitentiary for three years, for assault with intent to kill; W. A. Burch, for larceny in hiring a horse and running away with it, sentenced to three years, and Indian Bob, larceny, the same period. These fellows are arriving just in the nick of time; the busy season has commenced at the brick works, and they will be able to pay their way as they go, besides helping to build up the town."

A. T. Stewart and Moses H. Grinnell have paid into the New York Trust Company $52,000, the amount of the subscription for the family of General Rawlins.

General Bragg has been succeeded in the Superintendency of the New Orleans water works by a mulatto. Thus the whirligig of time brings in his revenges.

B. L. STONE gets new supplies of Jewelry, Watches, Chains, Clocks, Silver Plate, Spoons, Butter Knives, Napkin Rings, &c., &c., by every steamer, which he proposes to sell so cheap that no one need be without these articles.

"TIME TRIES ALL THINGS."—The transition from one season to another has a world of effect upon the styles of clothing people wear; but Time, which proves all things, has proved that Kohn & Fishel are ever ready, and up to the season with every grade of goods necessary to please the most fastidious. Please call and examine their latest importations.

Newspaper Statements.

HOW THE PEOPLE TEST THEIR TRUTH.

This is not an age when people believe or trust whatever they see in the public journals. Fifty or sixty years ago when the accuracy of a statement that had appeared in one of the gazettes or "News Letters" of the day, was questioned, it was considered a sufficient answer to all cavil to say, "It must be so, for I read it in the newspaper." It is not so now. Newspaper assertions must be verified before they are taken for granted, and this is especially the case as regards statements setting forth the remedial properties of Proprietary medicines. For example: It was not until the tonic and alterative properties of Hostetter's Stomach Bitters has been deliberately and thoroughly tested by thousands, and found to be in perfect accord with the printed claims put forth in its behalf, that it was accepted by the public at large as a *Standard Remedy*. But when multitudes who had resorted to it as a safeguard against malarious fevers, a cure for indigestion and biliousness, a means of strengthening the frame, cheering the spirits and imparting constitutional vigor, came forward and testified that its beneficial effects had exceeded their most sanguine expectations, *of course the world believed*. To resist such proofs was impossible. Great care had been taken from the beginning not to overstate the merits of the Bitters. Exaggeration and bombast have been the death of many preparations that might otherwise have survived. They were "weighed in the balance and found wanting." Hostetter's Bitters, on the contrary, have never been announced in grandiloquent language as a cure for every bodily ill, but simply as a pure harmless vegetable specific possessing remarkable invigorating, regulating, antibilious and antiseptic properties. This is exactly what the public know the medicine to be, and its enormous sales is an argument in its favor.

Notice of Assignee's Sale of Real and Personal Property.

NOTICE IS HEREBY GIVEN THAT THE UNDERsigned, Assignee in Bankruptcy of the estate of Edward T. Warren, who, upon his own petition, was on the 14th day of March, A. D. 1870, by the District Court of the United States, for the District of Oregon, adjudged a bankrupt, will sell at public auction to the highest bidder, for cash, in gold coin,

On the 9th Day of June, A. D. 1870,

at 10 o'clock, A. M., at what is known as the Commercial Flour Mills, near the town of McMinnville, in Yamhill county, Oregon, all the right, title, interest and estate of the said Bankrupt at the time of filing his petition in Bankruptcy, to wit: on the 10th day of March, 1870, in and to all those certain tracts, lots or parcels of land, situate, lying and being in and near the town of McMinnville, in the county of Yamhill, in the State of Oregon, and described as follows: Commencing at a point on the south boundary line of Wm. T. Newby's land claim, in the Yamhill river N 72¼, E 7 chs 46 feet from angle in said Newby's claim on north line of S. Cozine's land claim, and running thence north 11 rods; thence N 77¼, W 15 rods and 6 feet; thence north 13 rods and 6 feet; thence S 71½°, E 44 rods and 5 feet; thence N 72½° E 75 rods and 8 feet; thence N 42°, E 8 chains; thence N 30°, E 29 chains; thence east 23-100 chains; thence south 34 chains; thence west, 20 25-100 chains; thence S 72½°, W 24 10-100 chains to the place of beginning—containing about 55½ acres—together with the buildings thereon, consisting of a good new steam grist mill, known as the

COMMERCIAL MILLS,

with two run of burrs, engine, machinery, &c., granaries, warehouse, two dwelling houses, barn and other outbuildings. Nearly the entire tract is under fence, with a good orchard thereon, and a considerable portion in a good state of cultivation.

Also, lot number 1 of section 21, and lots number 1 and 2 of section 22 in T 4 S, or R 4 W of Willamette Meridian, containing about 72 48-100 acres, being the land claim of Jacob B. Lichtenthaler and Notification 7,267, as appears of record at the United States Land Office at Oregon City—partly under cultivation.

Also, lots numbered 14, 15, 16 and 17, of the one acre lots of college lands adjoining the said town of McMinnville, as shown and designated on the said maps and plats of said college lands.

Also, all those lots, tracts or parcels of lands in the said town of McMinnville, and known upon the maps and plats of college land as lots numbered 19, 20, 21, 22, 31, 32, 33 and 34, containing one and one-third acres, more or less, well improved and fenced. A good dwelling house and barn thereon.

Also, that certain lot, numbered 26, as marked and designated upon plats of college lands in said town of McMinnville, being 60 feet by 100 feet. Also,

All that certain tract, or lot of land, being a part of the Donation Land Claim of W. T. Newby, bounded and described as follows, to-wit: Beginning at a stake 11 rods north of a stake on the right bank of the Yamhill river, below high water mark; said stake, on the right bank of said river, bears from a stake in angle of said claim N 72½ deg., E 28 rods, thence N 77½ deg., W 15 rods and 6 feet; thence south 2 rods and 16 feet; thence S 81½ deg., E 15 rods and 2 feet to the east boundary to the river; thence N 1½ rods to place of beginning; containing 20-100 of an acre. Also,

At the same time and place the following personal property:—4 team horses, 4 setts harness, 1 heavy team wagon, 66 cords fir wood, the right to cut 100 cords fir wood on the Martin Place, 4 platform scales, 1 beam scale and hopper, 1 office desk, 1 iron proof staff, 1 wooden proof staff, 2 pair hand trucks, 1 odd force pump, &c., 1 lot Burlap and Dundee sacks, 2 buckets and 3 water barrels, 5 grindstones, 1 lot cast iron gearing, 1 lot mill tools, consisting of hammers, chisels, &c., &c., 1 flat boat, with chains, fence blocks, &c., &c., used as a ferry boat, 1 policy of insurance on Commercial Mills and granaries.

Deeds at expense of purchaser.

CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 535 AND 537 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and put on their guard against this practice.

FREE LOVE.

We love our patrons, both large and small!
No choice of sex—we love them all,
If it chance to be a luckless wight
No matter, to the "chink's" in sight!
If it chance to be a worthy man,
We'll trust him, on the fortnight plan,
But would prefer, if the same to him,
To sell him goods for the ready tin!

Send on your orders, send on your chink!
By sending the money you're saving the ink;
No danger in sending by your children or wife—
We're all of us married and settled for life!
Our love is on the golden plan,
We love the lady as well as the man;
We're partial to none—American or Brittana—
The money's "what's the matter with Hannah."

Come with your bacon, butter and beans;
Come with your lettuce, cabbage and greens;
Come with your chickens, lard and honey,
We'll exchange you goods or pay you the money.
One thing bear in mind—if love's labor is lost—
We never sell goods at less than their cost;
And when reading our sign, reflect that below
Is an honorable firm, Mr. OATMAN & CO.

P. S. There's more truth than poetry in the above.

DISTRICT OF OREGON, SS.—In the matter of Edward T. Warren, In Bankruptcy. Whereas George T. Myers, assignee of the estate of said Bankrupt, has on this 10th day of May, A. D. 1870, filed his petition in the District Court of the United States for said district, for an order that he be authorized to sell certain real property in said petition described, being a part of W. T. Newby's claim on the bank of Yamhill river, conveyed to said bankrupt by one J. H. Berry, and another tract of land known as the Lichtenthaler donation claim, and conveyed to said bankrupt by Jacob B. Lichtenthaler and Mary, his wife, containing altogether about 135 acres, which is subject to a mortgage for the sum of $5,000 with interest thereon, and that it would be for the interest of the creditors of said E. T. Warren that said property should be redeemed and discharged from the lien thereof. A Coming Conflict.

HOW THE FREE-TRADERS DRAW THEIR SINEWS OF WAR—ASSAULTS ON PROTECTION BY THE NEW YORK IMPORTERS.

[From the Adams (Mass.) Transcript, April 25.]

Everything points to a speedy and bitter struggle upon the question of free trade. The war, among other results, gave the policy of protection an opportunity which it never had and never could have while the slaveholders were masters of the Government. They were for free trade because they believed it promoted their interests, and also because they knew it injured the North and retarded the development and success of free institutions. This probably had a large influence in deciding the course of England and France at the breaking out of hostilities. Their sympathy with the South was natural and grew out of political agreement, commercial greed and a desire to keep and enlarge a market for their manufactured goods. Our blockade of the Southern ports and our tariff completed what national jealousies and dynastic interests began. It fixed the hostility of England and France. But the war gave the North the control of Congress and the exigencies of its progress created the necessity for a policy of protection, which has now had a trial of ten years. Under its influence the industry of the North during the war sprang into gigantic development, carrying with it an amazing growth and prosperity. Notwithstanding the enormous drain and waste of war, the North grew in wealth and power more rapidly than before, and is to-day richer and stronger than ever. This is largely the influence and result of the policy of protection which invited into being new industries and fostered and guarded those already established. Without the tariff, our industries would have been destroyed and we like the South, should have been at the mercy of Europe, compelled to buy their goods, borrow their money and depend upon our enemies for support. That support we could not have obtained, because the cause of despotism required our defeat and humiliation. Our tariff made us independent, while it stimulated and protected the industry out of which came the means by which our armies were fed, clothed and paid. While this is manifest to the American people, it has become rapidly and painfully clear to England. The tariff has driven her from the control of our markets and given it to our own people. The consequence has been a steady and appalling decline of manufacturing in England. Mills have been stopped, labor is a drug in the manufacturing districts, and riot and tumult have increased. England had joined hands with rebels, and built their *Alabamas* with which to destroy our commerce and give her the carrying trade of the world, and now she clamors for free trade to employ her ships and revive her sinking industry. She wants free trade that she may glut our markets with her accumulated goods; free trade to undersell our manufacturers, disband our laborers, and arrest production; free trade, that in the end she may control our market. To accomplish this all the energies and wealth of the great importing interests are now being directed. The New York importers are the soul and source of the present assault upon the policy of protection. They patronize the great journals; they subscribe the ample funds, they organize the "reform league," they pay the peripatetic lecturers, they supply the Washington lobby, they inspire the Democratic leaders with an issue, and are preparing the forces of free trade for the approaching conflict. While there are honest differences of opinion, and many defects and abuses in present laws, and good ground for revision and rectification, still, the real cause of the present struggle lies in the selfishness and hostility of the importing interest, and this interest is mainly European. With the exception of a few cultured theorists and thinkers the free trade movement is directed and supported by the agents and partners of European capitalists and manufacturers. At present, the movement goes under the name of "Tariff Reform," but this is only a temporary device to conciliate the new converts, to be abandoned for the truer flag of "free trade" when the necessity for concealment and sham is passed. The movement includes Democrats, sentimental Republicans, and a few short-sighted manufacturers who hope to remove the duty on raw materials and retain it on the goods they make. All these classes and interests are skilfully used and marshaled, with appeals to party ambition, sectional prejudice, business selfishness and popular ignorance, to the end that foreign capital and cheap labor may break down domestic manufactories and monopolize the American market. This is the real purpose which underlies the pretenses of the "reform league," and this the issue which the country will soon be summoned to meet.

Hoop-La!

A NEW JERSEY "RELIGIOUS" SECT—AN IMPROVEMENT ON THE HOWLING DERVISHES.

[From the Cincinnati Commercial, April 20.]

Great religious excitement exists in Macopin, twelve miles from Patterson, N. J. A new religious society called "Jehovah's Band" has been started, supplanting a favorite station of the Methodist Church. The Methodists sent their best preachers to combat the heresy, but they are repudiated. Each in turn is forced to leave.

The peculiar form of worship develops itself in puffing, blowing, whistling, shouting, jumping, wrestling, falling to the floor, and rolling over and kicking. Both women and men engage in the exercises. Baptism is by immersion in the village mill-pond, in the dead hour of the night. On Sunday they hold continuous service, and take a recess for meals only, refusing to read a newspaper, or even to receive a letter on that day.

Every Thursday evening they hold their meetings in the school house, until a difficulty about the candles used led them to leave it, and now they meet at any house in the neighborhood where the spirit manifests itself.

John Rhinesmith, a wealthy and well-to-do farmer of the neighborhood, is the chief man of the band, and recently had his house rebuilt especially to accommodate the brethren; one room resting on strong beams, it stands the jumping; but about a month ago, an ardent member, in a paroxysm of fanaticism, declared that when filled with the Holy Ghost he felt as air, and even though they jumped upon a looking-glass, they would not so much as bruise it with a scratch; whereupon he began to leap upon the stove-hearth, and broke it off, and then leaping on the top, broke in the frail covers, and finally smashed a big rocking chair before he subsided.

Recently Rhinesmith baptised Mr. Gilbert B. Speaker, a man of family and a convert to the new faith, the baptism taking place in Rhinesmith's mill pond, before the members of the band and amid shouts and cries, the whole gang at one time shouting "fire," to the alarm of others in the neighborhood, it being then after midnight.

One of the band told a reporter that as he was at work in his barn, he got the spirit and that he ran one mile over ditches and fences before the spirit left him, and all this time he was so elated that he thought he was flying.

When jumping in ecstacy of the Holy Ghost, they say their spirits rise far above their bodies.

They permit no person, excepting those belonging to the band, to join them in singing or jumping, or any other of their exercises, although no objection is made to the attendance of outsiders at the meetings of the band. A dozen will have the floor at once, pounding and kicking, and the whole crowd seem worked up to a fearful state of excitement—some jumping until they fall; the women shrieking in the wildest manner, and others praying, whistling, or puffing, as for a wager.

They permit no levity on the part of the young folks during their proceedings. Mr. Cob, one of the Band, is thought to be growing insane under the excitement of this religious frenzy. There is no doubt that the members of the Band are sincere enthusiasts. The Society now numbers over five hundred members.

A DEMOCRATIC DISCOVERY.—The Rome (Ga.) *Courier* demonstrates, to its own satisfaction, that the negro race is destined to a speedy extinction. It makes known, as the result of editorial observation, that the mortality among the colored population is about six times as great as among the whites, and that there is a great scarcity of negro babies. Hence it asks, with a triumphant air, "Whither is the darkey drifting?" and answers, "To a speedy extinction." He is to disappear from the earth like the Dodo, and after a little, all that will be left of the race will be a few fossils preserved in some geological museum. And this tremendous result is to follow, because the negro has been given his freedom.

These "*facts*" which are wrought out in high color, make the future of the negro look dark enough, if he stays down in Georgia, and he should, as a wise precaution, be selecting the cabinet in which he wants to transmit his bones to future generations. Up North, no such astonishing results have followed emancipation. The colored folks seem to be enjoying reasonably good health—have as many children as usual—and don't die "six to one" as compared with the whites, but are apparently increasing in numbers, as they are in education and mechanical skill. Not even the most enthusiastic collector of fossils or antiquarian in comparative anatomy, has thought necessary to procure a specimen as yet, though the theory of "extinction" would insure a high premium on the article, and give a speculating turn to the profession of body snatching. On the whole, we would not advise any one to embark his means in this direction, for fear that there may be a trifling error somewhere in the *Courier* man's figures, and that the negro will still live in spite of prophecy.—*Chicago Republican.*

FINANCE AND COMMERCE.

PORTLAND, Thursday, May 19, 1870.

Gold is still quoted at New York at 114.

Legal Tenders are quotable at 87½c steady.

The supply of money in this market is ample for all legitimate business purposes. The banks are ready to loan on good security at the usual rate of 1 per cent. interest, any amount that may be wanted, but they have no disposition to loan for speculation or on security which is not a safe one. There is already a considerable increase in the volume of money in circulation, as compared with one, two or three months ago, and there is little ground for complaint on the part of any class of people. Rates of interest are unchanged.

The following is a comparative statement of the exports of specie from the port of New York to foreign ports for nineteen years, from Jan. 1 to April 30, 1870, and for the corresponding periods in the undernoted years:

Years.			
1870	$7,584,757	1860	$7,174,440
1869	16,747,563	1859	14,202,601
1868	8,519,273	1858	9,912,840
1867	7,091,240	1857	8,571,081
1866	5,994,705	1856	6,067,555
1865	5,212,524	1855	7,552,101
1864	15,450,550	1854	7,090,623
1863	10,985,584	1853	3,194,078
1862	12,905,782	1852	7,232,761
1861	2,580,000		

Says the *Commercial Herald*: The speculative tendencies of Wall street operators nearly received their quietus in September last, but the old cliques have again been busy, and strong efforts have been made to reorganize for another grand achievement in the gold market. They have, however, much more to contend against, and can hardly succeed in any such attempt. The recent rise in the gold premium, from 110 to 115, has had the effect of unearthing vast amounts of coin from private hoards, banks and close corporations, in order to reap the benefit, the general impression being that there is no good warrant for the rise, and that it is but evanescent. This prodigious amount of coin has been flooding Wall street, and operating against the speculators, besides being backed by large sums paid out of the Treasury for interest, sales of gold and purchase of bonds.

Gradually, and by natural process, the country is working its way to resumption, and each day brings us nearer the time when greenbacks and gold will be at par. When that occurs business will be done on a clear, well comprehended and substantial basis; commerce, traffic, manufactures, agricultural operations, and every interest will be enlarged and benefitted. Confidence will be restored, and those who are now compelled to operate with the greatest caution and within narrow limits, will find their field expanded, and their enterprise animated.

In commercial circles we find a cheerful spirit prevailing. The week has been one of fair business in the aggregate, though in a few lines there has been less animation than is desirable. There is less movement in Dry Goods perhaps than in any other branch of trade, and yet the sales have been by no means insignificant for the week. AGRICULTURAL GOODS There have been quite a number of shipments during the week of harvesters and mowers, etc. The aggregate of business transacted is quite fair as compared with the average of preceding weeks. The apparent certainty of a good season for the farmers of the State is giving already a considerable impetus to this trade. The steamer *California* for Victoria to-day takes a considerable amount of agricultural machinery, farm tools, etc. HARDWARE—But little has been doing within the last few days. The most of the up-country merchants have laid in their spring stocks, and there is likely to be a dull season for a month or two. Prices are, however, firm and without change. GROCERIES—About the usual volume of business is observable. Sugars and coffees have advanced about 1c per lb each. Salt of nearly all brands, has still further declined. Other goods as before quoted.

Produce—The general tone of the market is hopeful, though advices from San Francisco represent the chances against maintaining the present prices for flour. We quote all leading brands, however, $5 50@6. Wheat—good white has advanced to 85@90c bushel, and buyers are paying 85@88c. There is, however, but little offering and prices are scarcely better than nominal. Oats—The price has advanced to 60c per bushel; supplies are limited, and arrivals scarcely worth mention. Ground Feed is $2 50 per ton higher. Other produce as quoted last week.

The steamship *California* for Victoria and Puget Sound to-day, takes a full cargo, mostly of flour, with small lots of wheat, bacon and other produce and provisions. The shipments are nearly all to Victoria consignees.

An English agricultural journal, of late date, speaking of the crop prospects in that country, says: "The wheats, more backward, thin, and weak than they have been known for years, are only just coming into readiness for the hoe. The roller and presser have been universally in requisition for solidifying the dry and dusty soil about the plants, and the crop has suffered severely from drought following upon an excessive rain-fall."

Shipping Intelligence.

The steamship *California* will sail from San Francisco for Portland next Tuesday, the 24th.

Sailed—May 19th, propeller steamship *California*, for Victoria, with 300 tons freight and 47 passengers.

To Sail—May 21st, steamship *Moses Taylor*, San Francisco.

REPUBLICAN PLATFORM.

The Union Republican party of Oregon, in Convention, makes this declaration of its principles and policy:

1st. Unfaltering devotion to the Union, first, last, and forever; and unwavering fidelity to the Constitution and its amendments, and to the laws of our National Legislature.

2d. We wholly approve the principles and policy of the administration of President Grant, as carrying into practical application the principles for which we have successfully strived. And we particularly commend these points in his Inaugural Address, wherein he declares—"let it be understood that no repudiator of one farthing of our public debt will be trusted in public places, and it will go far towards strengthening a credit which ought to be the best in the world," and "I would protect the law abiding citizen, whether of native or foreign birth, wherever his rights are prejudiced or the flag of our country floats;" and "I will have no policy to enforce against the will of the people."

3d. We have confidence that the Administration will wisely and firmly protect the interests and sustain the dignity of the Nation in respect to other nations, and especially with regard to our just claims against Great Britain.

4th. We denounce all forms of repudiation as a national crime,—and the national honor requires the payment of the public indebtedness in the uttermost good faith to all creditors at home or abroad, not only according to the letter, but the spirit of the laws under which it was contracted. And for this purpose, we favor a strict economy in the Administration of the National Government, and the application to such payment of all surplus revenue, from whatever sources derived, and that taxation should be equalized and reduced as rapidly as the national faith will permit.

5th. We make no distinction between citizens, whether of foreign or native birth; and that we sympathize now and ever with men of all nationalities striving for self government.

6th. That we are opposed to any change in our naturalization laws which shall admit to citizenship any foreigners not now entitled thereto under said laws.

7th. We favor a judicious system of railroad and river improvements in Oregon, in order to develop our resources and invite settlement of our unoccupied territory—and for this purpose insist that Congress should make us liberal grants of aid.

8th. We are in favor of a tariff for revenue, with such discriminations in favor of our domestic manufactures as will not diminish its efficiency for the purposes of revenue.

9th. We favor universal amnesty to the people of those States lately in rebellion, which have been restored to full relations in the Union.

10th. We are in favor of fostering the cause of education, and are opposed to any diversion of the common school funds of this State to any other purpose than the support of common schools.

11th. We recognize in the Union Republican party the measures and men who saved the Government from destruction, and that its continuance in power is the only sure safeguard to national peace and prosperity. And with this platform we appeal to the voters of Oregon for their suffrages and support.

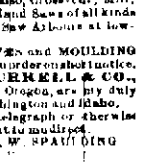
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, etc.—and brothers who are suffering with any of these horrible life-destroying maladies see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his specialty for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtaining immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER. Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.
